This week ASSET InterTech announced a new partnership with Cray that will put ASSET's technology into Cray's supercomputers

...Cray Inc. has selected ASSET InterTech's ScanWorks platform for embedded instrumentation as the basis for embedded test solutions critical to Cray's next-generation supercomputers. ASSET ([www.asset-intertech.com](http://www.asset-intertech.com)) is the leading supplier of open tools for embedded instrumentation for design validation, test and debug. Cray will collaborate with ASSET and ASSET will deliver embedded test logic intellectual property (IP) that will support high-reliability and remote diagnostics in Cray's supercomputers...
