ASSET InterTech consistently provides products and services that meet or exceed the requirements and expectations of our customers. We continuously improve our products by developing new technologies that help our customers achieve their goals. We respond to customer requests in a timely manner and strive to constantly reduce the number of defects in the products we deliver. Customer satisfaction is enhanced by using quality objectives that are measurable and have targets for improvement.

ASSET InterTech actively pursues improving quality through programs and methodologies consistent with leading commercial software companies who deliver products that support electronic and software engineering teams. ASSET InterTech is committed to continually improving the effectiveness of the quality management system through compliance with ISO 9001:2015 and applicable requirements.

The President\CEO of ASSET InterTech reviews the quality management system of our organization with the Board of Directors annually to ensure the maintenance of the product quality through evaluation, inspection and verification processes at all stages of development, production and deployment.
